

Streamline your mortgage QC reverifications in one secure place

Reverifications are crucial to any mortgage quality control program. Thomson Reuters® Confirmation provides an easy, fast, and secure way to complete reverifications from anywhere as a cloud-based solution.

Rely on Confirmation to send the original VOD or statements to the bank of your choice from more than 1,000 available banks. Getting started is easy with an intuitive interface where you can send, find, sort, and filter requests.

Confirmation network highlights

4,000+

banks and departments around the world use Confirmation

88

of the top 100 U.S. banks respond to financial verification requests through Confirmation

1.5 million

people trust Confirmation for their financial verification needs

Contact us at us.confirmation.com/2022av-requester or call 866-325-7201 today.

Fast

A response to your in-network mortgage reverification request is guaranteed, and you'll get it fast — usually in less than 24 hours. If you're still doing reverifications the old way, you're wasting time.

Streamlined

Simplify your workflow and manage requests in fewer steps from a single centralized solution. Plus, send requests for multiple clients to multiple banks in one order and streamline the checkout process by completing multiple requests at once.

Secure

Confirmation features the largest validated network to reduce the risk of fraud and guarantee each party using the solution is credible. We pass hundreds of security audits each year, and ensure Confirmation complies with regulatory standards.
