

# Stay ahead of the game with future-dated requests

Did you know that you can pre-schedule your audit confirmations? With CONFIRMATION, you can initiate requests now with an 'As of Date' up to 90 days in the future. Future-dating is a great strategy for getting ahead of busy season, or simply working ahead when it's convenient or you're planning time away. Here's how it works:

- ✓ Add your clients' details into the platform
- ✓ Select the date you want them to be confirmed
- ✓ Your requests will remain in queue until the future date you've selected
- ✓ When the date you've selected is reached, your requests will be sent to your specified banks automatically

Since banks typically operate on a first-come, first-served basis, the sooner you submit your requests, the higher you'll be on the bank's response list. You can view the statuses for your future-dated confirmations in the platform at any time.
